Click the Add Elements Button and the Elements panel will open.

In the Elements panel you can choose to upload your own image, add your own text or choose from one of our designs.

If you choose to upload your own photo, make sure it is the highest resolution possible. .SVG vectors work best but you can also upload .PNG, .JPG and .GIF files. Files should be black and white. Remember the white is what the light will shine through.
If you choose to add your own text, simply type your text into the box and submit.

You can click on your text to format.

You can change the font, alignment, line height and much more.
To add one or multiple of our pre-existing designs simply click the ones you want.

You can edit the size, position and rotation of each design you add.
You can use one or combine all of our elements to create the perfect GOBO for your occasion.
